This press release is not for tax reporting purposes. The press release has been issued to announce the amount and timing of the distributions declared by the Board of Trustees. There is a possibility that distributions may include ordinary income, long-term capital gains or return of capital. For information on whether the distribution includes a return of capital, please contact us on or after the distribution payment date. The amount of distributable income and the tax characteristics of the distributions are determined at the end of the taxable year. In early 2020, the Fund will send shareholders a Form 1099-DIV specifying how the distributions paid by the Fund during the prior calendar year should be characterized for purposes of reporting the distributions on a shareholder’s tax return.

About DoubleLine Income Solutions Fund

The Fund’s primary investment objective is to seek high current income; its secondary objective is to seek capital appreciation. The Fund seeks to achieve its investment objectives by investing in a portfolio of investments selected for their potential to provide high current income, growth of capital, or both. DoubleLine Capital LP (“DoubleLine”), the Fund’s investment adviser, expects that the Fund will normally invest at least 80% of its net assets (plus any borrowings for investment purposes) in debt securities and other income-producing investments anywhere in the world, including emerging markets. The Fund may invest in mortgage-backed securities of any kind and may invest without limit in securities rated below investment grade (commonly referred to as “high yield” securities or “junk bonds”). There is no guarantee that the Fund will achieve its investment objectives. Investing in the Fund involves the risk of principal loss.

Fund investing involves risk. Principal loss is possible.

Shares of closed-end investment companies frequently trade at a discount to their net asset value, which may increase investors' risk of loss. This risk may be greater for investors expecting to sell their shares in a relatively short period after the completion of the public offering. There are risks associated with investment in the fund.

Investments in debt securities typically decline in value when interest rates rise. This risk is usually greater for longer-term debt securities. Investments in asset-backed and mortgage-backed securities include additional risks that investors should be aware of including credit risk, prepayment risk, possible illiquidity and default, as well as increased susceptibility to adverse economic developments. Past performance is no guarantee of future results. The fund may invest in foreign securities which involve greater volatility and political, economic and currency risks and differences in accounting methods. These risks are greater for investments in emerging markets. Investments in lower rated and non-rated securities present a great risk of loss to principal and interest than higher rated securities. Investment strategies may not achieve the desired results due to implementation lag, other timing factors, portfolio management decisions-making, economic or market conditions or other unanticipated factors. In addition, the Fund may invest in other asset classes and investments such as, among others, REITs, credit default swaps, short sales, derivatives and smaller companies which include additional risks. The DoubleLine Income Solutions Fund (the "Fund") is a diversified, closed-end management investment company.

Distributions include all distribution payments regardless of source and may include net income, capital gains, and/or return of capital (ROC). ROC should not be confused with yield or income. A Fund's Section 19a-1 Notice, if applicable, contains additional distribution composition information and may be obtained by visiting www.doublelinefunds.com. Final determination of a distribution's tax character will be made on Form 1099 DIV and sent to shareholders. On a tax basis, as of June 28th, 2019 the most recent available figure, the estimated component of the cumulative distribution for the fiscal year to date would include an estimated return of capital of \$0.000 (0%) per share. This amount is an estimate and the actual amounts and sources for tax reporting purposes may change upon final determination of tax characteristics and may be subject to changes based on tax regulations.

Any tax or legal information provided is merely a summary of our understanding and interpretation of some of the current income tax regulations and is not exhaustive. Investors must consult their tax advisor or legal counsel for advice and information concerning their particular situation. Neither the Fund nor any of its representatives may give legal or tax advice.
